## COVID-19 Essential Business Statement

Cici Boiler Rooms, Inc. is defined under the Federal CISA COVID-19 disaster response plan as a Critical Infrastructure Supplier.

As the Nation comes together to slow the spread of COVID-19, on March 16<sup>th</sup>, 2020, President Trump issued updated Coronavirus Guidance for America. This guidance states that:

*“If you work in a critical infrastructure industry, as defined by the Department of Homeland Security, such as healthcare service and pharmaceutical and food supply, you have a special responsibility to maintain your normal work schedule.”*

The federal Cybersecurity and Infrastructure Security Agency (CISA) provides strategic guidance, promotes a national unity of effort and coordinates the overall federal effort to ensure the security and resilience of America’s critical infrastructure.

On March 19, 2020, CISA listed essential critical infrastructure workers during COVID-19 response to help state and local officials as they work to protect their communities, while ensuring continuity of functions critical to public health and safety, as well as economic and national security. This list includes, chemical, commercial facilities, critical manufacturing, defense industrial bases, energy, food & agriculture, government facilities, water and healthcare & public health. The list is available at: <https://www.cisa.gov/identifying-critical-infrastructure-during-covid-19>. The list is explicitly designed to inform critical infrastructure community decision-making to determine the sectors, sub-sectors, segments or critical functions that should continue normal operations, appropriately modified to account for Centers for Disease Control workforce and customer protection guidance.

Because Cici Boiler Rooms, Inc. is a supplier and service provider to a number of critical infrastructures, we are considered by the U.S. Department of Homeland Security as ***Workers Essential Critical Infrastructure During COVID-19 Response by the US Department of Homeland Security***.
